EDUCATION

National Institute of Technology, Tiruchirappalli

Master of Computer Applications, CGPA: 7.63

July 2018 – June 2021

Tiruchirappalli, Tamil Nadu

EXPERIENCE

KPI Partners

October 2025 – Present

Senior Software Engineer II

Bengaluru, Karnataka

- Developed Python-based automation solutions for Tableau-to-Power BI migration, streamlining data extraction, transformation, and report conversion workflows, enabling the migration of 5,000+ reports per week.
- Built and optimized backend services, REST APIs, and SQL-based data processing pipelines to automate report generation, validation, and enterprise data transformations, reducing manual effort for Power BI developers by 70-80%.
- Collaborated with cross-functional teams to develop React-based interfaces and scalable analytics solutions, ensuring data quality, improving migration accuracy, and delivering high-volume reporting solutions across enterprise environments.

Quoqo Technologies (P) Ltd

November 2023 – September 2025

Engineer II

Bengaluru, Karnataka

- Contributed to the development of **Quoqo Fusion**, an all-in-one legal management platform for Quoqo, an early-stage legal tech startup, by integrating features such as electronic signatures, AI-powered document review, an online in-built editor with multiple AI plugins, and secure document storage.
- Designed and implemented key features including E-signature, DSC, Aadhaar-based signing, digital stamps, and license generation for reseller billing using React, Python, Django and AWS; enabled Office 365 integration for seamless collaboration; and enhanced platform usability by addressing bugs, improving features, and ensuring user-friendliness.

Halliburton Development Center India (LLP)

March 2022 – August 2023

Software Developer

Bengaluru, Karnataka

- Developed features for the DS365.ai platform, enabling users to build, train, and deploy machine learning workflows through a dashboard.
- Designed and developed a scalable React-based frontend from scratch, integrating Python REST APIs to deliver real-time machine learning workflows and data visualization capabilities.
- Demonstrated expertise in efficient debugging and troubleshooting using React, JavaScript, and Python to facilitate production support L3 for robust problem resolution in live environments while maintaining system reliability and performance.

HSBC Electronic Data Processing India Private Limited

March 2021 – March 2022

Analyst

Kolkata, West Bengal

- Developed a Monitoring Dashboard using Python, Dash, and React to generate multiple graphs on a single platform and use CRMI as a database
- Created a Python email template that generates email newsletters automatically based on the team's internal update on confluence.

Trawello HealthyKID

December 2019 – January 2020

Intern

Trichy, Tamil Nadu

- Worked on Health Tracker Web Application, which stores and visualises student health implications based on physical tests and checkups.
- Implemented REST API for authentication and user registration.

PROJECTS

DriveMaster | ReactJS, Python, Django

- Developed DriveMaster, a web-based file browser using React and Django, enabling seamless file and folder management.
- Implemented secure folder sharing with registered users and robust access control management for customizable permissions. Enhanced the user interface for better user experience and smooth file operations.

TemplateEASE | ReactJS, Python, Django

- Built a web app for editing .docx files with formatting preservation, OCR-based PDF-to-DOCX conversion, and support for uploading PDFs/DOCs as templates.
- Integrated AI-powered document generation, in-document chat, review tools, and red-line editing for comprehensive document workflows.

TECHNICAL SKILLS

- Programming Languages:** Python, JavaScript, TypeScript, SQL
- Frontend Technologies:** ReactJS, Angular, HTML5, CSS3
- Backend Technologies:** Django, Django REST Framework (DRF), REST APIs
- Databases:** PostgreSQL, MySQL, Firebase, NoSQL
- Cloud Platforms:** AWS (EC2, S3), Azure (Blob Storage, App Services)
- Version Control/Management Tools:** Git, GitHub, Azure DevOps
- AI & Developer Tools:** LLM Integration, Prompt Engineering, OpenAI APIs, GitHub Copilot, Postman, VS Code

ACHIEVEMENTS

- Secured AIR 52 in NIMCET, All India MCA Entrance Exam in 2018
- Secured 1st Position in THINKLTICS, LOGIN'19 (National Level MCA Symposium, PSG College, Coimbatore)).
